Mission of St. Thomas More's AP Program

It is the mission of St. Thomas More's AP Program to provide willing and academically prepared students the opportunity to participate in college-level courses. In order to support this mission, the curriculum is designed to advance the student's analytical thinking skills, writing abilities and knowledge in specific subject areas, not to strictly pass the AP test. Additionally, the rigorous instruction provided by the AP teacher will create a learning environment conducive to student success.
