Listed below are our volunteer opportunities for the 2022-2023 school year. Parent volunteers are an important part of our school community, and we encourage all parents to help in whichever way they can. Parents that are involved, active, and take an assertive role in all aspects of their child's experience at STM tend to get more out of the experience than those that are not as involved. At STM, we offer a variety of ways for our parents to get involved and stay informed. Please check all areas of your interest. You will receive more information early this fall.

Please return this form by **August 23, 2022**.
